

## SYNBONE Hemi-Pelvis Series

SYNBONE has developed a range of hemi-pelvis models with acetabular diameter ranging from Ø48mm up to Ø56mm for hip prosthesis exercise. Most models are available with or without integrated holder.

Features of SYNBONE Hemi-Pelvis models:

- 5 different standard acetabular diameters Ø: 48mm, 50mm, 52mm, 54mm, 56mm
- More anatomically detailed models
- The integrated posterior holding block enables the model to be securely positioned for a robust workstation.
- The bone material is optimized for hip replacement training workshops. The elasticity of the material enables the use of press-fit implants.

### Models with integrated holder

#### 4020 Hemi-Pelvis left Ø48mm holder

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 48mm and a posterior holding block
<b>Dimensions</b>	Acetabular diameter: 48mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

#### 4021 Hemi-Pelvis left Ø50mm holder

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 50mm and a posterior holding block
<b>Dimensions</b>	Acetabular diameter: 50mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

#### 4022 Hemi-Pelvis left Ø52mm holder

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 52mm and a posterior holding block
<b>Dimensions</b>	Acetabular diameter: 52mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### 4023 Hemi-Pelvis left Ø54mm holder

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 54mm and a posterior holding block
<b>Dimensions</b>	Acetabular diameter: 54mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

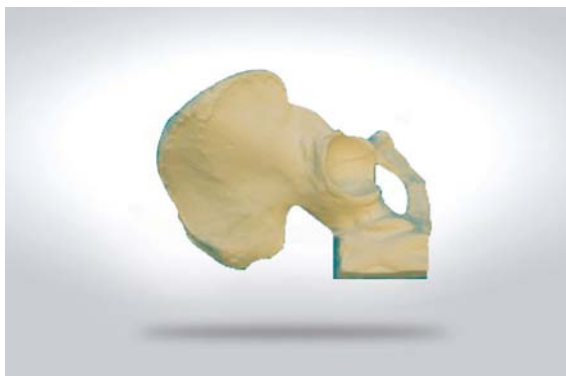

### 4024 Hemi-Pelvis left Ø56mm holder

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 56mm and a posterior holding block
<b>Dimensions</b>	Acetabular diameter: 56mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### PR0767 Hemi-Pelvis holder

<b>Description</b>	Right Hemi-Pelvis with posterior holding block
<b>Dimensions</b>	Acetabular diameter: 55mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### PR0735 Hemi-Pelvis malun. holder

<b>Description</b>	Right Hemi-Pelvis with malunion at the Acetabulum and posterior holding block
<b>Dimensions</b>	Acetabular diameter: 49mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

## Models without holder

### 4030 Hemi-Pelvis left Ø48mm

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 48mm
<b>Dimensions</b>	Acetabular diameter: 48mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

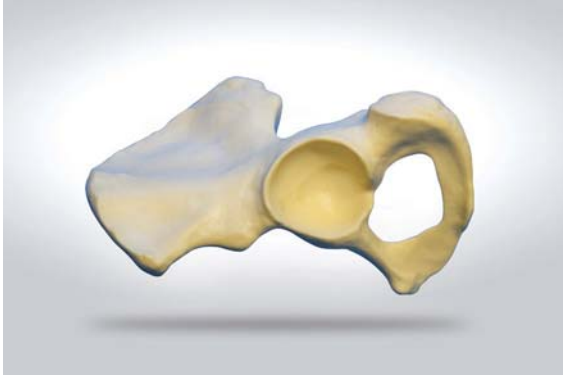

### 4031 Hemi-Pelvis left Ø50mm

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 50mm
<b>Dimensions</b>	Acetabular diameter: 50mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### 4032 Hemi-Pelvis left Ø 52mm

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 52mm
<b>Dimensions</b>	Acetabular diameter: 52mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### 4033 Hemi-Pelvis left Ø 54mm

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 54mm
<b>Dimensions</b>	Acetabular diameter: 54mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

### 4034 Hemi-Pelvis left Ø56mm

<b>Description</b>	Left Hemi-Pelvis with acetabular diameter 56mm
<b>Dimensions</b>	Acetabular diameter: 56mm
<b>Material</b>	Solid foam, light dense cancellous bone
<b>Remarks</b>	Used for hip prosthesis
<b>Fracture</b>	Not fractured

As details make the difference SYNBONE is your preferred partner for better education outcome.

Customized solutions are also available, please contact us if you need another model definition.
