

SYNBONE AG is a global leader in medical education and training solutions since 1988, serving 1,000+ leading Medical Device Companies, Education Institutes and University Hospitals in over 80 countries. Headquarter is in Zizers, Switzerland while production facility is in our subsidiary in Malaysia.

We are seeking a passionate Project Manager that carries out the transformation of the Smart SYNBONE research initiative into a commercial, scalable surgical training platform. This includes SYNBONE products, hardware, and data-driven technologies supported by AI.

Acting at the intersection of MedTech and surgical education, the role drives business planning, market validation, and commercialization while aligning clinical, educational, and industry.

## Innovation Project Manager (MedTech / Surgical Training)
